Dr. T.L. Shipman
Health Division
Los Alamos Scientific Laboratory
P.O. Box 1660
Los Alamos, New Mexico

Dear Doctor Shipman:

I have been corresponding for some time with Mr. W.R. Adair of the Albuquerque Operations Office in regard to his experiences several years after a sting by a "turkeyfish". Mr. Adair has informed me recently that it was his understanding that you had written to me under date of 18 December 1958 regarding this matter, but I have not received such a letter. I would appreciate your sending a copy to me at the above address.

It is my intention to submit an account of Mr. Adair's case to the J.A.M.A. or other journal, as soon as I have collected all pertinent information.

Sincerely yours,

Paul R. Saunders
